Unbreakable Blades Range

The Only Indian Flexible Blades Range

about us....

M/s Super Engineers (Regd.) India, our parent company, we are engaged in the manufacturing of Hacksaw Blades for the past over two decades. Now we offer our customers with cutting technology of decades to come. It is made possible only with relentless research and development activities of our team of dedicated engineers and field staff over a long period since its inception. Now we take pride in offering you with a wide range of blades required by any industrial unit, big or small. Our product are now widely accepted for their consistent quality and long lasting performance.

We are manufacturing following products -

a) Hand Hacksaw Blade LA & in H.S.S.

Our **Hand Hacksaw** are made from finest material latest manufacturing techniques regarding teeth profile and cutting angle with modern heat treatment equipment are being used.

H.S.S.blades are in M₂ material and latest heat treatment technique are being employed to get optimum results.

Recently we have developed **Flexible Blade** range in **Hand Hacksaw** and power saw blade. Because of its non breaking quality and high performance it is getting very good response. We are only Indian manufacturer of **Flexible Hand Hacksaw Blades**. Our Brand Name - **Ultra-Flex**.

b) Power Saw Blades

We are manufacturing **Power Saw Blades** in full range from 12"x1"x18G to 24"x2"x12G in all T.P.I 6,8,10,14,18 Power Saw are of best available material with unique tooth profile to give optimum cutting power & life. We have developed Power blades in **Ultra-Flex** (Flexible Blades Range)

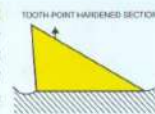

c) Metal cutting Bandsaw Blades

We are manufacturing above also, and provide full range 1/4" x 23G,

5/16"x23G, 3/8"x23G, 3/4"x80, 1"x90 in all T.P.I. 6 T, 8T, 10 T, 14 T, 18 T, 24T etc. Our M.C.B.B. are for best cutting power and economy. There are hardened and tempered in latest machines using controlled atmosphere and other parameters.

d) Wood Working Patta

We are manufacturing **Wood Working Patta** in full range. Best material and latest technique is being employed.

e) Hacksaw Frame Square Section

We have developed tubular **Hacksaw Frame Square Section** for maximum life and fine cutting. These are powder coated and with plastic handle for firm grip.

f) Jack Plane Blade

We are providing full range from 1 1/2" x 7" to 2 1/4" 7". These are manufacture out of best steel (HC-21). These are hardened with latest equipment and controlled atmosphere and conditions.

g) Wood Planner Blade

Wood Planner Blades are manufactured with best steel and we provide full range

1 1/4" 2.2mm x any length
1 1/4" x 3mm x any length

these are ground to accuracy for best results.

We are also entering into **Agro-Industry** and started to manufacture combine blades. **Harvesting Combine Blades in - Super Cut Brand**.

• HACKSAW BLADES • **OLTRA flex** • POWER BLADES • M.C.B. BLADES • RANDA PATTI

JACK PLANE BLADES • WOOD PLANNER • HACKSAW FRAME • JUNIOR FRAME
